Solar Radiation and Daylight Models
(with software available from companion web site)

T. Muneer
Napier University, Edinburgh

with a chapter on Solar Spectral Radiation

by C. Gueymard, Solar Consulting Services, Denver, Colorado

and

H. Kambezidis, National Observatory of Athens, Athens
3 HOURLY HORIZONTAL IRRADIATION AND ILLUMINANCE 61

Introduction 61
3.1 Monthly-averaged hourly horizontal global irradiation 61
3.2 Monthly-averaged hourly horizontal diffuse irradiation 64
3.3 Hourly horizontal global irradiation 68
3.4 Hourly horizontal diffuse irradiation 100
3.5 Hourly horizontal illuminance 103
3.6 Daylight factor 118
3.7 Solar climate characterisation 122
3.8 Frequency distribution of illuminance 129
3.9 Exercises 133
References 135

4 HOURLY SLOPE IRRADIATION AND ILLUMINANCE 143

Introduction 143
4.1 Slope beam irradiances and illuminances 144
4.2 Sky clarity indices 144
4.3 Sky-diffuse irradiance models 147
4.4 Slope illuminance models 167
4.5 Radiance and luminance distributions 173
4.6 Luminance transmission through glazing 188
4.7 Quality control of cloud cover, sunshine, solar radiation and daylight data 190
4.8 Shadow band (shade ring) diffuse irradiance correction factor 205
4.9 Exercises 216
References 216

5 SOLAR SPECTRAL RADIATION C. Gueymard and H. Kambezidis 221

5.1 Instruments and measurements 221
5.2 The earth's atmosphere - 236
5.3 Extraterrestrial spectrum 247
5.4 Spectral modelling 250
5.5 Validation 270
5.6 Applications 278
References 296

6 GROUND ALBEDO 303

Introduction 303
6.1 Estimation of ground-reflected radiation 303
6.2 Models for ground-reflected radiation 307
6.3 Albedo atlas for the UK 308
6.4 Estimation of monthly-averaged albedo 315
References 315
7 PSYCHROMETRICS 317
   Introduction 317
7.1 Psychrometric properties 317
7.2 Hourly temperature model 320
   References 322

8 SOLAR RADIATION AND DAYLIGHT DATA 323
8.1 International Daylight Measurement Programme 323
8.2 IDMP recorded horizontal and slope data for solar radiation and 323
daylight measurements
8.3 Sky scan data 326
8.4 Web-based sources for accessing solar radiation and weather data 328
8.5 Satellite based and other sources for accessing solar radiation and 330
   weather data
   References 331
