**KEY READINGS** 84
**CASE 2: THE BUSINESS OF WATER** 85

## Evaluating Business Ethics

### NORMATIVE ETHICAL THEORIES

- **Introduction** 92
- **The role of ethical theory** 92
- **Normative ethical theories: North-American and European origins and differences** 94
# Detailed Contents

## Western modernist ethical theories
- Consequentialist theories  
- Non-consequentialist theories  
- Limits of Western modernist theories  

## Alternative perspectives on ethical theory
- Ethical approaches based on character and integrity  
- Ethical approaches based on relationships and responsibility  
- Ethical approaches based on procedures of norm generation  
- Ethical approaches based on empathy and moral impulse  

## Summary: towards a pragmatic use of ethical theory  

## Study Questions  

## Research Exercise  

## Key Readings  

## Case 3: British Petroleum and the BTC Pipeline: Turkish Delight or Russian Roulette?  

## Making Decisions in Business Ethics

### Descriptive Ethical Theories

## Introduction  

## What is an ethical decision?  

## Models of ethical decision-making
- Stages in ethical decision-making  
- Relationship with normative theory  
- Influences on ethical decision-making  
- Limitations of ethical decision-making models  
- International perspectives on ethical decision-making  

## Individual influences on ethical decision-making
- Age and gender  
- National and cultural characteristics  
- Education and employment  
- Psychological factors  
- Personal values  
- Personal integrity  
- Moral imagination  

## Situational influences on decision-making
- Issue-related factors  
- Context-related factors  

## Summary  

## Study Questions  

## Research Exercise  

## Key Readings

11 Government, Regulation, and Business Ethics

Introduction

Government as a stakeholder

Defining government, laws, and regulation
Basic roles of government as a stakeholder
Government as a representative of citizens' interests
Government as an actor (or group of actors) with interests of its own

Ethical issues in the relation between business and government

Identifying the basic problems and issues: legitimacy, accountability, and modes of influence
Lobbying
Party financing
Overlap of posts between business and government: individual conflicts of interest
Corruption of governmental actors by business
Ethical issues in the context of privatization and deregulation
Globalization and business-government relations  
- From the national to the global context  
- Shifting roles for business and government in a global context  
- Business as an actor within the national context (Westphalian setting)  
- Business as an actor within the national context of authoritarian/oppressive regimes  
- Business as an actor in the global context (post-Westphalian setting)  
- Business-government relations in international trade regimes  

Corporate citizenship and regulation: business as key player in the regulatory game  
- Governments as regulators (segment 1)  
- Self-regulation by business (segment 2)  
- Regulation involving business, governmental actors, and CSOs (segments 3, 4, and 5)  

Governments, business, and sustainability  
- Global climate change legislation and business responses: support versus obstruction  
- Achieving sustainability: securing the global supply of food and water
