Part I  Introduction and Structure

1  Environmental Management Accounting (EMA) as a Support for Cleaner Production 3
   Stefan Schaltegger, Martin Bennett, Roger L. Burrilt, and Christine Jasch

Part II  EMA in Cleaner Production—Theories and Models

2  Applying Best Available Techniques in Environmental Management Accounting: From the Definition to an Assessment Method 29
   Valerie Laforest

   Claus Lang-Koelz, Severin Beucker, and Daniel Heubach

4  Unravelling the Impacts of Supply Chains—A New Triple-Bottom-Line Accounting Approach and Software Tool 65
   Thomas Wiedmann and Manfred Lenzen

5  Life-Cycle Based Sustainability Assessment of Products 91
   Walter Klopffer and Isa Renner

6  Environmental Statements on the Internet—From a Mere EMAS Requirement to an On-line Environmental Communication Tool 103
   Ralf Isenmann

7  Phenomenological Model of Cleaner Production 123
   Zygfryd A. Nowak and Michal J. Cichy
Part III  EMA Support for Cleaner Production—Case Studies

8  Using EMA to Benchmark Environmental Costs—Theory and Experience from Four Countries Through the UNIDO TEST Project ............................................. 143
   Maria Csulora and Roberta de Palma

9  Sustainable Development in the South African Mining Industry: The Role of Cleaner Production and EMA ............................................. 165
   Maryna Mohr-Swarl, Faan Coetzee, and James Blignaut

10 Environmental Management Accounting in the Metal Finishing Industry ............................................. 193
    Michael Koefoed

11 Chemical Management Services: Safeguarding Environmental Outcomes .....! ' 209
    Martin Kurdve

Part IV  Recent Conceptual Developments in EMA and New Areas

12 The Development of Environmental Management Accounting: An Institutional View ............................................. 233
    Wei Qian and Roger Burritt

13 Does Corporate Environmental Accounting Make Business Sense? ............................................. 249
    Seakle K.B. Godschalk

14 An Environmental Accounting Model for a Natural Reserve ............................................. 267
    Francesco Marangon, Maurizio Spoto, and Francesca Visintin

    Wynand J. Wentzel, Brian Kevin Reilly, and Yvonne Reilly

16 Environmental Management Accounting and Environmental Accountability Within Universities: Current Practice and Future Potential ............................................. 301
    Huei-Chun Chang and Craig Deegan

17 The IFAC International Guidance Document on Environmental Management Accounting ............................................. 321
    Christine Jasch and Deborah E. Savage
Contents

Part V  International EMA Developments and Surveys

18 Environmental Performance Indicators—Key Features of Some Recent Proposals  .................................................. 339
Robert Langford

19 The Need for Standardised Disclosure on Climate-Risk in Financial Reports: Implications of the JICPA Reports  ........... 353
Takeshi Mizuguchi

20 Environmental Management Accounting Practices in Japanese Manufacturing Sites  ................................................ 365
Katsuhiko Kokubu and Eriko Nashioka

Part VI  Case Studies in EMA

21 Waste Reduction Program Based on IFAC's EMA Guideline in Danisco A/S  ....................................................... 379
Lars Munk0e and Christine Jasch

22 Implementing Material Flow Cost Accounting in a Pharmaceutical Company ......................................................... 395
Yasushi Onishi, Katsuhiko Kokubu, and Michiyasu Nakajima

23 Operational Use of the Environmental Accounting and Information Software TEAMS at Hydro Aluminium Sunndal, Norway ................................................................. 411
John E. Hermansen, Anne Kristine M0lmen-Nertun, and Grunde Pollestad

24 Failure of an Environmental Strategy: Lessons from an Explosion at Petrochina and Subsequent Water Pollution  ..................... 423
Xiaomei Guo

Part VII  Success Factors in Implementation

Martin Bennett

26 An Empirical Examination of the Role of Environmental Accounting Information in Environmental Investment Decision-Making  ......................................................... 457
Tapan K. Sarker and Roger L. Burritt
