Post-occupancy evaluations 38
Real estate options 39
Totally serviced workplaces 40
Conclusions 41

4 Retaining services in-house vs outsourcing 43
Key issues 43
Introduction 43
Attributes of service 44
Customer service 44
Uniqueness of service 45
Priority, flexibility and speed of response 46
Management implications and indirect cost 47
Direct cost 48
Control 48
Overview of options and implications 50
Market testing 51
Other implications of outsourcing 51
Conclusions 52

5 Change management 54
Key issues 54
Introduction 54
Change in an organisational setting 55
Managing change in practice 56
Change as a process 56
Communicating change 59
Responsibilities of those managing change 60
Resolving cultural conflict 61
Case study – EastPoint 61
Conclusions 64

6 Human resources management 66
Key issues 66
Introduction 66
Dealing with shifting demands for resources 67
Appropriate management structure 67
Case study – Practical human resources issues 68
Employment obligations 72
Case study – Sun Life 73
Functions, job descriptions and skills 76
Performance appraisal 77
Conclusions 79

7 Policy and procedures for outsourcing 81
Key issues 81
Introduction 81
Contents

Essential approach 82
Strategy 84
Tender documents 87
Tendering process 89
Ongoing relationships 93
Conclusions 94

8 Policy and procedures for in-house provision 96
Key issues 96
Introduction 96
Definition of services 97
Identifying stakeholders 97
In-house capabilities and skills 98
Departments as customers 98
In-house team approach 98
Service provision reviewed and improved 99
Conclusions 100

9 Service specifications, service level agreements and performance 101
Key issues 101
Introduction 102
Stakeholders' interests 102
Rationale for service specifications and SLAs 103
What is a service specification? 103
Example of a service specification – cleaning of open-plan offices 105
What is a service level agreement (SLA)? 107
Example of a service level agreement (SLA) 109
Critical success factors and key performance indicators 110
Performance monitoring 113
Updating service specification and SLAs 116
Quality system 117
Conclusions 118

10 Health, safety and environment 119
Key issues 119
Introduction 119
Sustainability and environmental issues 120
Relevant legislation 121
General policy 121
Corporate social responsibility 122
Organisation and administration 123
Workers' rights 124
Disability discrimination 124
Safety rules and practice 125
Stress, employees and the organisation 128
Conclusions 130
11 Workplace productivity
   Key issues
   Introduction
   Measuring productivity
   Work itself
   The organisation
   Communication
   Work environment
   Environmental factors having an impact on productivity
   Design implications
   Unconventional working arrangements
   Conclusions

12 Building intelligence and smart systems
   Key issues
   Introduction
   Building engineering services
   Intelligent buildings – Smart buildings
   Smart tagging, sensing and control
   Applications of smart systems technology
   Conclusions

13 Facilities management service providers
   Key issues
   Introduction
   Preliminary approach
   Types of service provision
   Managing agent
   Case study – Facilities management in the public sector
   Managing contractor
   Managed budget
   Total facilities management
   Evolution in the nature of service providers
   Determining the best approach
   Conclusions

14 Managing service provider and supplier relationships
   Key issues
   Introduction
   Service providers and suppliers
   Types of relationship
   What kind of relationship is needed?
   Contractual arrangements and partnering
   Gain-sharing
   Continual improvement
   Conclusions

15 Managing specialist services
   Key issues
Introduction
ICT services
Health care services
Security and protection services
Custodial services
Professional services
Performance and service level agreements
Risks, insurance and indemnities
Conclusions

16 Information systems management
Key issues
Introduction
Information management
Planned preventive maintenance
Case study – ICEconsult
Computer-aided facilities management (CAFM)
Building information modelling
BIM applied to existing buildings
Conclusions

17 Contract management and financial control
Key issues
Introduction
Contract conditions and terms
Payments
Cost monitoring
Performance monitoring
Change control
Contract administration
Contract review
Conclusions

18 Benchmarking best practice
Key issues
Introduction
Pursuing continual improvement
Benchmarking practices
Measuring performance
Benchmarking facilities management
Other kinds of benchmarking
Case study – Diageo
Conclusions

19 Public-private partnerships
Key issues
Introduction
Public-private partnerships (PPPs)
