

Thomas Rachfall

**The Impact of Information and
Communication Technology on the
Information Overload Phenomenon**

Verlag Dr. Kovac

**Hamburg
2017**

TABLE OF CONTENTS

ABSTRACT	V
ACKNOWLEDGEMENTS	VI
DEDICATION	VII
ABBREVIATIONS	VIII
TABLE OF CONTENTS	X
LIST OF FIGURES	XV
LIST OF TABLES	XVIII
1 Introduction	1
1.1 Introduction	2
1.2 Background to the thesis	2
1.B Gaps and aim of the research	9
1.4 Objectives and questions of the research	10
1.5 Contribution to knowledge	12
1.6 Outline of the thesis structure	12
1.7 Chapter summary	15
2 Literature review I: information and communication	16
2.1 Introduction	18
2.2 Information and communication	18
2.2.1 History of the term information	18
2.2.2 Derivation and attributes of the term information	19
2.2.3 Communication	24
2.3 Information and decision making	28
2.3.1 Decision making	29
2.3.2 Information as a factor in the decision making process	33
2.3.3 Information measurement	35
2.4 Information supply	38
2.5 Information as a resource	41
2.6 Chapter summary	44

3	Literature review II: information overload	46
3.1	Introduction	48
3.2	Information Overload (10)	48
3.2.1	The individual's information processing	49
3.2.1.1	Information supply - stimulus	51
3.2.1.2	Information transformation and saving - organism	52
3.2.1.3	Information processing model by Rasmussen	55
3.2.2	Introduction to the 10 phenomenon	57
3.2.2.1	Different definitions of 10	60
3.2.2.2	10 in different scientific disciplines	61
3.2.2.3	10 model by Moser et al	65
3.2.2.4	10 model by Eppler and Mengis	68
3.2.2.5	Approaches to measure 10	71
3.2.3	Individuals and 10	73
3.2.3.1	Overload and under load	73
3.2.3.2	Individuals and 10 symptoms	76
3.2.3.3	Individual protection mechanisms	80
3.2.4	Organisations and 10	81
3.2.4.1	Socio technological systems	81
3.2.4.2	Coordination and division of labour	82
3.2.4.3	10 in organisations	83
3.3	Information and communication technology and 10	85
3.3.1	Technological information processing	85
3.3.2	Definition of information and communication technology	86
3.3.3	Telecommunications	89
3.3.4	Information Technology	91
3.3.5	The development of data amount	92
3.3.6	The data explosion and their consequences	95
3.3.7	Attributes of ICT as a cause of 10	98
3.4	Critical appraisal of the 10 phenomenon	99
3.5	Chapter summary	103

4	Research methodology	106
4.1	Introduction	108
4.2	Research methodology	108
4.2.1	Research philosophy and research approach	109
4.2.2	Research strategy	111
4.2.3	Objectives in consideration to the research questions	112
4.3	Research design phase I	113
4.3.1	The literature review	114
4.3.2	Modelling a conceptual framework for 10 influence factors	115
4.4	Research design phase II	117
4.4.1	Introduction	118
4.4.2	Data collecting strategy and methods	119
4.4.2.1	Multiple –embedded –flexible case study	120
4.4.2.2	Time horizon and schedule	121
4.4.2.3	Unit of analysis and case selection (sampling)	123
4.4.2.4	Data collection methods	126
4.4.2.5	Data collection material	130
4.4.3	Pilot case, pre-test and case study protocol	131
4.4.4	Data collection and analysis	134
4.4.4.1	Data collection within case study companies	134
4.4.4.2	Data analysis	136
4.4.4.3	Data reporting	138
4.4.5	Credibility of data	140
4.4.6	Ethical issues and code of conduct	144
4.4.7	Summary	145
4.5	Chapter summary	146
5	Phase I: conceptual model for testing different IO causes	148
5.1	Introduction	150
5.2	Theoretical basis for the conceptual model	150
5.3	Conceptual model and different IO influence factors	156
5.3.1	Dimensions of the information processing capacity	157
5.3.2	Dimensions of the information processing requirements	160
5.4	Chapter summary	164

6	Phase II: cross case data analysis	164
6.1	Introduction	166
6.2	Overview case companies and management accountants	166
6.3	Status quo and usage behaviour of ICT	168
6.4	10 occurrence: significant items	177
6.5	Inter-correlation between the scales and internal consistency	180
6.6	Demographic correlations	182
6.7	Data analysis in regard to the RQs	183
6.7.1	RQ 2.1– bad and (ir)relevant information	183
6.7.2	RQ 2.2-work satisfaction	191
6.7.3	RQ 2.3-stress	198
6.8	Chapter summary	206
7	Discussion, conclusions and future work	208
7.1	Introduction	210
7.2	Discussion of findings	211
7.2.1	Introduction	211
7.2.2	Identified existing research gaps	212
7.2.3	The literature reviews and their findings	215
7.2.4	Findings on phase I	216
7.2.4.1	RQ 1.1: What are the possible causes of 10	217
7.2.4.2	RQ 1.2: How can the different 10 influence factors be classified	219
7.2.4.3	RQ 1.3: Can a model of 10 be established	223
7.2.5	Findings on phase II	225
7.2.5.1	ICT usage behaviour and other findings regarding 10	226
7.2.5.2	RQ2.1: bad and (ir)relevant information	227
7.2.5.3	RQ 2.2: work satisfaction	228
7.2.5.4	RQ 2.3: stress	229
7.2.6	Summary	230
7.3	Conclusions in light of the research questions	231
7.4	Contribution to knowledge	235
7.4.1	Contribution to theory	235
7.4.2	Contribution to business practice	236
7.4.3	Contribution to policy	237

7.5	Limitations of the research study	238
7.6	Recommendations for future work	239
7.7	Conclusion	240
