

THE FACILITY MANAGER'S
GUIDE TO INFORMATION
TECHNOLOGY

SECOND EDITION

GEOFF WILLIAMS

MICHAEL MAY

TABLE OF CONTENTS

| | |
|--|--------------|
| Preface | XXIII |
| <i>Michael May, Geoff Williams</i> | |
| 1 The Relationship Between FM and IT | 27 |
| <i>Kevin Janus</i> | |
| 2 Technologies and Their Impact on FM | 31 |
| <i>Julie Knudson, Kevin Janus</i> | |
| 2.1 Introduction | 31 |
| 2.2 Factors of Change | 32 |
| 2.2.1 Advances in Technology | 32 |
| 2.2.2 Violence and Terrorism | 33 |
| 2.2.3 The Internet | 34 |
| 2.2.4 Internet of Things | 35 |
| 2.2.5 Mobile Devices | 36 |
| 2.2.6 Expectations | 37 |
| 2.3 Types of Technology | 37 |
| 2.3.1 Software | 38 |
| 2.3.2 Beyond Software | 39 |
| 2.4 Increased Responsibilities | 41 |
| 2.5 Revenue and Efficiency | 41 |

| | |
|---|----|
| <i>2.6 Information Management</i> | 43 |
| <i>2.7 Evolving Relationships and Expectations</i> | 44 |
| <i>2.7.1 Customer Relationship Management</i> | 44 |
| <i>2.7.2 Alerts</i> | 45 |
| <i>2.7.3 Information Sharing</i> | 46 |
| <i>2.7.4 Collaboration with IT Groups</i> | 46 |
| <i>2.8 Impact on FM Professionals</i> | 47 |
| <i>2.8.1 Collaboration among FMs, Partners, Vendors</i> | 47 |
| <i>2.8.2 Facility Management Education</i> | 47 |
| <i>2.9 Issues and Hurdles</i> | 48 |
| <i>2.10 Summary</i> | 49 |

3 IT Basics for Facility Managers **51**

*Marco Jedlitzke, Rick Corea, Joachim. Hohmann,
Michael Marchionini, Michael May, Marko Opic,
Ted Ritter, Geoff Williams*

| | |
|---|----|
| <i>3-1 The Importance of Information Technology for Facility Management</i> | 51 |
| <i>3-2 Networks</i> | 52 |
| <i>3.2.1 General Description of Computer Networks</i> | 52 |
| <i>3-2.2 Structure of Networks</i> | 54 |
| <i>3-2.3 Data Communication in Networks</i> | 55 |
| <i>3-2.4 Expansion of Networks</i> | 56 |
| <i>3.2.5 Internet, Intranet, and Extranet</i> | 57 |
| <i>3.3 Databases</i> | 58 |
| <i>3.4 Graphic Data Processing and CAD</i> | 60 |
| <i>3-5 Software</i> | 64 |
| <i>3.5.1 Software Life Cycle</i> | 64 |

| | | |
|----------|--|-----------|
| 3.5.2 | <i>Influence of the Software Architecture</i> | 66 |
| 3-5.3 | <i>Web Services as a Platform for the Realization of Distributed Objects</i> | 69 |
| 3-5.4 | <i>Cloud Based Applications</i> | 74 |
| 3.6 | <i>Open-Source Software in Facility Management</i> | 76 |
| 3-6.1 | <i>Open Source as an Idea</i> | 76 |
| 3.6.2 | <i>Open Source and CAFM</i> | 77 |
| 3-6.3 | <i>An Open-Source CAFM Project</i> | 77 |
| 3.7 | <i>Summary</i> | 78 |
| 4 | Mobile Technologies and IT Interfaces | 79 |
| | <i>Marco Jedlitzke, Dhaval Gajjar, Joachim Hohmann, Michael Marchionini, Michael May, Marko Opic, Geoff Williams</i> | |
| 4.1 | <i>Mobile Technologies</i> | 79 |
| 4.1.1 | <i>Identification by Means of QR Code, Bar Code or RFID</i> | 80 |
| 4.1.2 | <i>Mobile Devices</i> | 82 |
| 4.1.3 | <i>Mobile Technologies as a Component of a CAFM Solution</i> | 85 |
| 4.2 | <i>Interfaces</i> | 87 |
| 4.2.1 | <i>Necessity for the IT Integration</i> | 87 |
| 4.2.2 | <i>Classification of Interfaces</i> | 88 |
| 4.2.3 | <i>Organization of Data Exchange</i> | 90 |
| 4.3 | <i>IT Operating Concepts</i> | 91 |
| 4.3.1 | <i>Technical Operating Concepts</i> | 92 |
| 4.3.2 | <i>Organizational Operating Concepts</i> | 93 |
| 4.4 | <i>Summary</i> | |

| | |
|--|------------|
| 5 IT Security for Facility Managers | 97 |
| <i>Marco Jedlitzke, Jason Doolittle, Joachim Hohmann, Michael Marchionini, Michael May, Marko Opic, Geoff Williams</i> | |
| 5.1 Security | 97 |
| 5-2 Data and Security Concepts in CAFM | 98 |
| 5-3 General Security Aspects | 98 |
| 5-4 Authorization Concepts | 99 |
| 5.5 Data Communication Outside of a LAN | 100 |
| 5.5.1 Information Dissemination via the Internet | 100 |
| 5.5.2 Security in Wireless Local Area Networks | 101 |
| 5.5.3 Remote Access and Virtual Private Networks (VPNs) via the Internet | 102 |
| 5-5-4 Firewall Security Between Networks | 102 |
| 5-6 Mobile Devices | 103 |
| 5.7 Data Protection | 104 |
| 5-8 Security in the Cloud | 104 |
| 5-8.1 Securing Data in Transit | 106 |
| 5.8.2 Securing Data at Rest | 106 |
| 5-8.3 Service Availability | 107 |
| 5.9 Summary | 108 |
| 6 Facility Management and CAFM | 111 |
| <i>Michael Marchionini, Dan Rusch-Fischer, Joachim Hohmann, Bill Jordan, Michael May, Ted Ritter</i> | |
| 6.1 What Is (CA)FM? | 111 |

| | | |
|----------|---|------------|
| 6.2 | <i>Why CAFM?</i> | 115 |
| 6.3 | <i>FM vs. CAFM?</i> | 118 |
| 6.4 | <i>Historical Development</i> | 119 |
| 6.4.1 | <i>The 1960s and 1970s—Mainframe, Minicomputers and Modest Beginnings</i> | 119 |
| 6.4.2 | <i>The 1980s—The Personal Computer, the Crucial Innovation</i> | 120 |
| 6.4.3 | <i>The 1990s—Microsoft as the Dominant IT-Platform</i> | 120 |
| 6.4.4 | <i>CAFM "Generations"</i> | 121 |
| 6.4.5 | <i>The Twenty-first Century—The Internet Changes Everything</i> | 122 |
| 6.5 | <i>Structure of the FM Market</i> | 122 |
| 6.5.1 | <i>FM and CAFM Market</i> | 122 |
| 6.5.2 | <i>Historical Structure of the (German) CAFM Market</i> | 123 |
| 6.5.3 | <i>Vendor Structure of the (German) CAFM Market</i> | 124 |
| 6.6 | <i>CAFM Developments and Trends</i> | 126 |
| 6.7 | <i>CAFM—A Computer Science Discipline?</i> | 127 |
| 6.8 | <i>Summary</i> | 128 |
| 7 | FM Applications to be Supported by IT | 131 |
| | <i>Michael May, Simon Davis, Gary Kropp, Marco Opic</i> | |
| 7.1 | <i>General</i> | 131 |
| 7.2 | <i>Facility Inventory Documentation</i> | 132 |
| 7.3 | <i>Space Management</i> | 141 |

| | |
|---|------------|
| <i>7.4 Contract Management</i> | 143 |
| <i>7.5 Cleaning Management</i> | 145 |
| <i>7.6 Move Management</i> | 147 |
| <i>7.7 Energy Management</i> | 148 |
| <i>7.8 Maintenance Management</i> | 150 |
| <i>7.9 Facility Condition Assessments</i> | 154 |
| <i>7-10 Security and Access Control Management</i> | 156 |
| <i>7.11 Property Management—Leases and Rentals</i> | 158 |
| <i>7-12 Operating Cost Management</i> | 159 |
| <i>7.13 Financial Management</i> | 159 |
| <i>7.14 Other Applications</i> | 163 |
| <i>7-15 Summary</i> | 164 |
| 8 Economic Benefits of a CAFM Implementation | 165 |
| <i>Marco Hojmann, Joachim Hohmann, Stefan Koch, Michael May, Ted Ritter</i> | |
| <i>8.1 Is CAFM Useful?</i> | 165 |
| <i>8.1.1 Principal Considerations</i> | 165 |
| <i>8.1.2 A Typical Unsuccessful CAFM Project</i> | 166 |
| <i>8.1.3 A Success Story</i> | 168 |
| <i>8.2 ROI Measurements</i> | 171 |
| <i>8.2.1 ROI Organizational Measurement</i> | 171 |
| <i>8.2.2 ROI Driver Model</i> | 172 |
| <i>8.2.3 The ROI Power Measurement</i> | 182 |

| | | |
|--------|---|-----|
| 8.3 | <i>Assessment of the ROI Measurement</i> | 183 |
| 8.3.1 | <i>General Classification</i> | 183 |
| 8.3.2 | <i>Quantitative Evaluation</i> | 186 |
| 8.3.3 | <i>Delphi Method</i> | 186 |
| 8.4 | <i>Implementation in Practice</i> | 187 |
| 8.4.1 | <i>General Approach</i> | 187 |
| 8.4.2 | <i>Approach—ROI Functional Measurement</i> | 187 |
| 8.4.3 | <i>Two Examples</i> | 189 |
| 8.4.4 | <i>Consequences of "ROI Driver Ranking" on Further Measures</i> | 194 |
| 8.5 | <i>Practical Example of Economic Analysis</i> | 195 |
| 8.5.1 | <i>A CAFM Case Examined</i> | 195 |
| 8.5.2 | <i>Transparency and Standardization of the Overall Data</i> | 196 |
| 8.5.3 | <i>Analysis of Allocation, Space Usage, and Vacancy</i> | 198 |
| 8.5.4 | <i>Move Planning, Simulation, and Execution</i> | 199 |
| 8.5.5 | <i>Security and Key/Lock Management</i> | 200 |
| 8.5.6 | <i>Cleaning Management</i> | 202 |
| 8.5.7 | <i>Maintenance and Inspection of Technical Inventory</i> | 203 |
| 8.5.8 | <i>Failure-based Maintenance and Helpdesk</i> | 204 |
| 8.5.9 | <i>Building Service Charges for Tenants and Users</i> | 206 |
| 8.5.10 | <i>Real Estate Valuation / Portfolio Management</i> | 207 |
| 8.5.11 | <i>Results of Cost-Benefit Analysis</i> | 208 |
| 8.6 | <i>How to Build a CAFM Business Case - A Practical Approach</i> | 208 |
| 8.6.1 | <i>GEFMA's Guideline on Economic Benefits of CAFM</i> | 208 |
| 8.6.2 | <i>Cost Estimate</i> | 209 |
| 8.6.3 | <i>Assessment of Quantitative Value Drivers</i> | 210 |
| 8.6.4 | <i>Qualitative Value Drivers</i> | 211 |
| 8.6.5 | <i>Activity-Based Costing Approach</i> | 212 |

| | |
|--|------------|
| 8.7 Summary | 212 |
| 9 FM Business Processes and Their IT Implementation | 215 |
| <i>Kevin Janus</i> | |
| 9.1 What Is a Process? | 215 |
| 9-2 Facility Management Process | 216 |
| 9.3 Primary Processes | 217 |
| 9.3-1 Primary Process for One Group | 217 |
| 9.3.2 Workflow for One Group | 218 |
| 9.4 Task Flow for One Process | 219 |
| 9.5 Information Flow for One Process | 220 |
| 9.6 Perform the Analysis | 222 |
| 9.7 Summary | 222 |
| 10 Data Transfer and Data Exchange for CAFM | 223 |
| <i>Michael May, Carlos Casillas, Stefan Koch, Marko Opic, Eberhard Laepple, Geoff Williams</i> | |
| 10.1 The Importance of the Database for a CAFM System | 223 |
| 10.2 Data Format and Data Structuring | 224 |
| 10.3 Data Transfer for CAFM | 232 |
| 10.3.1 level of Detail and Associated Costs | 232 |
| 10.3.2 Capture of Floor Plans | 235 |
| 10.3.3 Collection of Room and Equipment Data | 241 |
| 10.3.4 Collection of External Documents | 243 |
| 10.3.5 New Facility Planning in Accordance with FM | 243 |
| 10.4 Indoor Digitization by 3-D Scanning Technology | 245 |

| | | |
|-----------|--|------------|
| 10.4.1 | <i>Potential</i> | 245 |
| 10.4.2 | <i>Indoor Digitization</i> | 246 |
| 10.4.3 | <i>Data Capture with a Mobile Trolley</i> | 247 |
| 10.4.4 | <i>From Point Cloud to BIM</i> | 248 |
| 10.4.5 | <i>Browser Visualization and Indoor Navigation</i> | 250 |
| 10.4.6 | <i>Application Area</i> | 256 |
| 10.5 | <i>Data Preparation for the Import into CAFM Systems</i> | |
| Systems | | 257 |
| 10.5.1 | <i>CAD As-Built</i> | 257 |
| 10.5.2 | <i>Room and Equipment Data</i> | 257 |
| 10.6 | <i>Quality Assurance and Data Preparation of Alphanumeric Data</i> | 257 |
| 10.6.1 | <i>General Approach</i> | 257 |
| 10.6.2 | <i>Definition of the Requirements</i> | 258 |
| 10.6.3 | <i>Collection of Data on Site</i> | 260 |
| 10.6.4 | <i>Automated Check of Data</i> | 261 |
| 10.6.5 | <i>Software Solution for the Automated Quality Assurance</i> | 262 |
| 10.7 | <i>Data Exchange in CAFM</i> | 263 |
| 10.7.1 | <i>General</i> | 263 |
| 10.7.2 | <i>Approach During the Implementation Phase</i> | 263 |
| 10.7.3 | <i>Approach During the Operating Phase</i> | 264 |
| 10.7.4 | <i>Exchange of Structured Tables</i> | 266 |
| 10.7.5 | <i>Exchange of Documents</i> | 267 |
| 10.7.6 | <i>Exchange of Structural Building Data</i> | 267 |
| 10.8 | <i>Summary</i> | 268 |
| 11 | CAFM Systems | 271 |
| | <i>Stefan Koch, Simon Davis, Nicole Lobb, Michael Marchionini, Michael May, Geoff Williams</i> | |
| 11.1 | <i>CAFM Software vs. CAFM Systems</i> | 271 |
| 11.2 | <i>Requirements on CAFM Systems</i> | 273 |

| | | |
|--------|---|-----|
| 11.2.1 | <i>The Process of Defining Requirements</i> | 273 |
| 11.2.2 | <i>User Interface Requirements</i> | 276 |
| 11.2.3 | <i>Reporting Requirements</i> | 277 |
| 11.2.4 | <i>Requirements for the Process Support</i> | 278 |
| 11.2.5 | <i>Requirements for Data Supply</i> | 280 |
| 11.3 | <i>System Concepts and System Structure</i> | 281 |
| 11.4 | <i>CAFM System Characteristics</i> | 282 |
| 11.4.1 | <i>CAFM System Based on a CAFM Software</i> | 282 |
| 11.4.2 | <i>CAFM System Based on Several CAFM Products</i> | 283 |
| 11.4.3 | <i>CAFM System Based on CAFM and ERF Software</i> | 284 |
| 11.4.4 | <i>CAFM System Based on ERP and CAD Software</i> | 286 |
| 11.4.5 | <i>CAFM System with Coupling to a BMS</i> | 292 |
| 11.5 | <i>Data Storage</i> | 292 |
| 11.6 | <i>Integration of CAFM Components</i> | 293 |
| 11.6.1 | <i>Interfaces in CAFM Systems</i> | 293 |
| 11.6.2 | <i>CAFM System with Integration by Data Warehouse</i> | 300 |
| 11.6.3 | <i>CAFM System with Integration by Middleware</i> | 304 |
| 11.7 | <i>CAFM and Internet</i> | 307 |
| 11.7.1 | <i>Overview of the Application Scenarios</i> | 307 |
| 11.7.2 | <i>Available Solutions</i> | 308 |
| 11.8 | <i>Summary</i> | 315 |

| | |
|---|------------|
| 12 Selection of CAFM Software | 317 |
| <i>Joachim Hohmann, Russ Burlety, Kevin Janus, Nicole Lobb, Michael Marchionini</i> | |
| 12.1 General | 317 |
| 12.2 Functional Specifications Document as a Basis of a Request for Proposal | 319 |
| 12.2.1 Description of Project | 320 |
| 12.2.2 Performance Specifications | 321 |
| 12.2.3 IT Requirements | 322 |
| 12.2.4 Interfaces | 324 |
| 12.2.5 Data Acquisition and Transfer | 324 |
| 12.2.6 Customizing | 324 |
| 12.3 Standardized Procurement and RFP | 326 |
| 12.3.1 General Form and Contents | 327 |
| 12.4 Summary | 328 |
| 13 Implementation Strategies for CAFM | 329 |
| <i>Michael May, Robert Bums, Chris Keller, Nicole Lobb, Michael Marchionini</i> | |
| 13.1 Overview and Issues | 329 |
| 13.2 Project Plan | 330 |
| 13.3 Standardized Procurement and RFP | 332 |
| 13-3.1 General Form and Contents | 333 |
| 13.4 The CAFM Implementation Process | 337 |
| 13.4.1 Conception Phase | 337 |
| 13-4.2 Selecting a Consultant (Optional) | 346 |
| 13.4.3 Software and Vendor Selection Phase | 348 |
| 13-4.4 Implementation Phase | 351 |
| 13-4.5 System Development and Use | 353 |

| | |
|--|------------|
| 13.5 <i>Implementation Strategies</i> | 355 |
| 13.5.1 <i>Initial Considerations</i> | 355 |
| 13.5.2 <i>Analytic Approach</i> | 356 |
| 13.5.3 <i>Pragmatic Approach</i> | 357 |
| 13.6 <i>Summary</i> | 359 |
| 14 IT-Based Strategic Space Optimization in FM | 363 |
| <i>Michael May, Michael Marchionini</i> | |
| 14.1 <i>The Challenge</i> | 363 |
| 14.2 <i>Unused Potentials</i> | 365 |
| 14.3 <i>Space Utilization Optimization</i> | 365 |
| 14.4 <i>The Problem</i> | 367 |
| 14.5 <i>The Solution</i> | 368 |
| 14.6 <i>Modeling the Building Structure</i> | 369 |
| 14.7 <i>Results</i> | 370 |
| 14.8 <i>Sample Project: District of Berlin-Spandau</i> | 372 |
| 14.9 <i>Other Projects</i> | 376 |
| 14.10 <i>Summary</i> | 377 |
| 15 The International FM/IT Relationship | 379 |
| <i>Michael May, Ted Ritter</i> | |
| 15.1 <i>IT—an Enabling Technology for FM</i> | 379 |
| 15.2 <i>IT and Facility Management</i> | 380 |

| | | |
|-----------|--|------------|
| 15.3 | <i>International Development of IT in FM</i> | 382 |
| 15-4 | <i>State of the Art in International IT Use in FM</i> | 386 |
| 15-5 | <i>IFMA Survey on Technology Trends in FM in North America</i> | 389 |
| 15-6 | <i>General Problems and Obstacles</i> | 394 |
| 16 | CAFM Trends and Outlook | 399 |
| | <i>Ted Ritter, Michael May, Maik Schlundt</i> | |
| 16.1 | <i>Trends in FM/IT</i> | 399 |
| 16.1.1 | <i>New Software Technologies</i> | 400 |
| 16.1.2 | <i>New Hardware Technologies</i> | 402 |
| 16.2 | <i>Augmented Reality in FM</i> | 403 |
| 16.3 | <i>IT/FM in 2020</i> | 407 |
| 17 | Information System Strategies in Facility Management | 411 |
| | <i>Poul Ebbesen</i> | |
| 17.1 | <i>Introduction</i> | 411 |
| 17.2 | <i>IS Strategy</i> | 411 |
| 17-3 | <i>A Method for Analyzing IS Strategies</i> | 412 |
| 17.4 | <i>Analyzing IS Strategies in IS Implementation Cases</i> | 414 |
| 17-4.1 | <i>Case C</i> | 414 |
| 17.4.2 | <i>Case D</i> | 415 |
| 17.5 | <i>Basic IS Strategies in FM</i> | 417 |
| 17.6 | <i>Summary</i> | 420 |

| | |
|--|------------|
| 18 Internet of Things Around Buildings | 423 |
| <i>Erik Jaspers, Michael May</i> | |
| 18.1 Assessing Potentials of Technologies | 423 |
| 18.2 Adopting New Technologies | 424 |
| 18.3 IoT and Related Technologies | 425 |
| 18.3.1 Internet of Things | 425 |
| 18.3.2 IoT for RE & FM | 426 |
| 18.3.3 IoT on User-Experience | 430 |
| 18.3.4 IoT on Climate | 431 |
| 18.3.5 IoT on Consumption | 433 |
| 18.3.6 IoT on Condition | 434 |
| 18.3.7 IoT on User Demand | 436 |
| 18.3.8 IoT Crossovers | 438 |
| 18.3.9 Implementing IoT | 442 |
| 18.3.10 IoT Networking Around Buildings | 445 |
| 18.3.11 A New Class of Building-Related Assets | 446 |
| 18.3.12 Tracking Human Behavior | 447 |
| 18.3.13 IoT Adoption | 448 |
| 18.4 Big Data of a Data Strategy | 448 |
| 18.5 Smart Technologies | 450 |
| 18.6 IFTTT-If This Then That | 452 |
| 18.7 Tactics on IoT and Big Data | 453 |
| 18.8 IoT and IWMS / CAFM | 454 |
| 18.9 Summary | 457 |
| 19 Data-Driven Facility Management | 459 |
| <i>Jason Doolittle, Simon Davis</i> | |
| 19-1 Metrics and Benchmarks | 460 |

| | |
|--|------------|
| 19.2 Data Collection and Storage | 462 |
| 19.3 Data Analytics and Machine Learning | 463 |
| 19.4 FM Process Analytics | 466 |
| 19.4.1 Historical Analytics | 467 |
| 19.4.2 Operational Analytics | 468 |
| 19.4.3 Predictive Analytics | 469 |
| 19.5 Analytics for Building Control and Monitoring Systems | 470 |
| 19.6 Example - Excess Reheat | 471 |
| 19.7 Summary | 471 |
| Appendix 1: Nokia Bruno Demunter | 473 |
| A1.1 Corporate Overview | 473 |
| A1.2 Real Estate Related Data | 475 |
| A1.3 FM Goals and Politics | 475 |
| A1.4 The Initial Situation | 477 |
| A1.5 The IWMS Project | 479 |
| A1.5.1 Preparation of the Project: Project-to-Value Mapping | 479 |
| A1.5.2 Start of the Project with a Pilot Focused on FM | 481 |
| A1.5.3 Proof of Concept Focused on Property Management (PM) | 482 |
| A1.5.4 Roles and Responsibilities | 484 |
| A1.5.5 Program Governance | 485 |

| | |
|--|------------|
| <i>A1.5.6 Project Schedule</i> | 486 |
| <i>A1.5.7 Space Data Capture and Management</i> | 486 |
| <i>A1.5.8 Global Reporting of Space Costs and Allocation to Business Units</i> | 488 |
| <i>A1.5.9 Collaboration with Outsourced Service Provider</i> | 489 |
| <i>A1.6 Results and Lessons Learned</i> | 491 |
| Appendix 2: United States Department of Energy <i>RSM</i> Means | 493 |
| <i>A2.1 Corporate Overview</i> | 493 |
| <i>A2.2 Requirements</i> | 493 |
| <i>A2.3 Methodology</i> | 494 |
| <i>A2.4 Outcomes</i> | 495 |
| Appendix 3: St. Mary's General Hospital / Grand River Hospital | 497 |
| <i>Geoff Williams, Roger Holliss</i> | |
| <i>A3.1 Corporate Overview</i> | 497 |
| <i>A3.1.1 St. Mary's General Hospital</i> | 497 |
| <i>A3-1.2 Grand River Hospital</i> | 498 |
| <i>A3.2 Restructuring of Health Care in Ontario</i> | 499 |
| <i>A3.3 Real Estate Related Data</i> | 499 |
| <i>A3.3.1 SMGH</i> | 499 |
| <i>^3.3.2 GRH</i> | 500 |
| <i>A3.4 The Initial Situation</i> | 500 |
| <i>A3.5 The CAFM Project</i> | 501 |

| | |
|--|------------|
| <i>A3.6 Project Schedule</i> | 502 |
| <i>A3.7 Results and Lessons Learned</i> | 503 |
| Appendix 4: IBM Carnegie Mellon <i>Dan Coffelt</i> | 505 |
| <i>A4.1 Overview</i> | 505 |
| <i>A4.2 Business Need</i> | 506 |
| <i>A4.3 Solution</i> | 507 |
| <i>A4.4 Benefits</i> | 510 |
| Appendix 5: Munich Airport <i>Michael May, Geoff Williams</i> | 511 |
| <i>A5.1 Corporate Overview</i> | 511 |
| <i>A5.2 Real Estate Related Data</i> | 515 |
| <i>A5.3 FM Goals and Politics</i> | 518 |
| <i>A5-4 The Initial Situation</i> | 520 |
| <i>A5.5 The CAFM Project</i> | 521 |
| <i>A5.5.1 Requirements of the CAFM Software and its Architecture</i> | 521 |
| <i>A5-5-2 Project Schedule</i> | 527 |
| <i>A5.6 Experiences and Lessons Learned</i> | 533 |
| Appendix 6: Denver International Airport <i>Ted Ritter, Daniel Stonecipher</i> | 537 |
| <i>A6.1 Corporate Overview</i> | 537 |

| | |
